Illinois Environmental Protection Agency
2200 Churchill Road
Springfield, Illinois 62706

Dear Sir:

Operating Permit Renewal

Enclosed in duplicate is an application for renewal of an operating permit for our LPG Terminal in Wood River. The current permit, Application No. 72120449, ID No. 119115AAY, expires July 10, 1983.

Duplicate copies are enclosed of two data sheets revised to reflect a change in vented gas disposal. Vented gases had been disposed of in the refinery south flare, but following the cessation of refining operations in 1981, the south flare was removed from service and gases from this terminal were piped to the central flare for disposal.

Yours truly,

J. J. Sevcik
Manager
NGL Operations
